SUMMARY

Enthusiastic software developer with a solid foundation in AWS cloud, automation, and configuration management. Skilled in Ansible and upskilling in Terraform for infrastructure as code, with hands-on experience in containerization and databases. Passionate about contributing to agile teams and growing as a cloud and DevOps professional.

TECHNICAL SKILLS

Cloud & DevOps: AWS (EC2, Lambda, VPC, S3, IAM, ELB, ASG), CI/CD — Jenkins, Docker, Ansible, Terraform (Upskilling)

Programming & Web: Python, JavaScript, Shell Scripting, Node.js, Express.js, HTML, CSS

Data & Tools: MySQL, MongoDB, Git, GitHub, GitHub Actions, Postman, VS Code, Jupyter, Google Colab

PROJECTS

VIT-Bolt – Campus Delivery Platform — JavaScript, Node.js, Express.js, MongoDB, TailwindCSS, Docker

- Engineered a **campus-exclusive delivery** ecosystem, generating local employment and expanding with an on-campus essentials store to boost platform utility by **35%** and unify daily student needs.
- Optimized **intelligent order routing** algorithms for efficiency and **containerized** the **Node.js** and **MongoDB** stack using **Docker & Docker Compose** to ensure consistent, scalable deployments.

GameZone – Cloud-Hosted Gaming Hub — AWS EC2, Jenkins, Docker, Linux, Node.js, HTML, CSS, JavaScript

- Engineered an interactive **gaming hub** leveraging **RAWG** and **IsThereAnyDeal APIs** to deliver platform-based filtering, real-time ratings, and pricing insights, significantly enhancing user game discovery.
- Engineered a **Jenkins** CI/CD pipeline for automated **Docker** deployments to **AWS EC2**, ensuring system reliability via **AWS CloudWatch** monitoring and hardening security with **IAM** roles and **Linux** scripting.

AWS Production-Ready VPC Setup — AWS VPC, EC2, ALB, Auto Scaling, NAT, IAM, Terraform

- Architected a **Multi-AZ VPC** using reusable **Terraform modules** to configure **NAT Gateways** and an **Application Load Balancer** with **Auto Scaling Groups**, achieving **99.9% availability** and fault tolerance.
- Hardened infrastructure security by implementing **IAM least-privilege roles**, granular **Security Groups**, and a **Bastion Host**, ensuring controlled access to private resources in a **production-grade** environment.

EDUCATION

Vellore Institute of Technology, Bhopal

Master of Computer Applications (CGPA: 9.05 / 10.00)

The Oxford College of Science

Bachelor of Computer Applications (CGPA: 7.78 / 10.00)

2024 – 2026

Bhopal, Madhya Pradesh

2020 – 2023

Bangalore, Karnataka

EXPERIENCE AND ACTIVITIES

Tech Head – Technical Club – The Oxford College of Science

- Organized 4 hands-on technical workshops and 1 hackathon for **150+ students**, increasing club participation and skill-building.
- Coordinated logistics and communication with faculty and teams for smooth event execution and high engagement.

Team Lead – Academic Semester Project

- Led a **4-member** team to develop a **full-stack web application**, aligning work across backend, frontend, and deployment.
- Improved delivery quality by using sprint planning, **Git-based collaboration**, and structured task tracking.

ACHIEVEMENTS & CERTIFICATIONS

AWS Cloud Practitioner Essentials – AWS Training & Certification, completed June 2025.

HackerRank Certifications: Problem Solving (Basic), Python (Introductory), Software Engineering Intern.

Placement Student of the Year (2023) – Awarded for outstanding performance in campus placements.
