SUMMARY

Enthusiastic software developer with a strong foundation in application design, development, and problem-solving. Experienced in writing clean, maintainable code and collaborating in agile teams. Familiar with AWS, automation tools like Ansible, and containerization, with ongoing upskilling in Terraform and seeking to grow as a polished software professional.

EDUCATION

VIT BHOPAL UNIVERSITY, BHOPAL

Master of Computer Applications - CGPA: 9.05/10

Bhopal, Madhya Pradesh

July 2024- June 2026

THE OXFORD COLLEGE OF SCIENCE, BANGALORE

Bachelor of Computer Applications - CGPA: 7.78/10

Bangalore, Karnataka

Oct 2020 - Sep 2023

EXPERIENCE AND ACTIVITIES

TECHNICAL CLUB - THE OXFORD COLLEGE OF SCIENCE

Technical Head

Bangalore, India

Jun 2021 – Sep 2022

- Organized 4 hands-on workshops and 1 hackathon for 150+ students, increasing participation and skill-building.
- Coordinated logistics and communication with faculty and teams for smooth event execution and high engagement.

ACADEMIC SEMESTER PROJECT

Team Leader

Bhopal, India

Dec 2024 – Mar 2025

- Led a 4-member team to develop a full-stack web application, aligning the backend, frontend, and deployment tasks.
- Improved delivery quality by using sprint planning, Git-based collaboration, and structured task tracking.

UNIVERSITY PROJECTS

VIT-Bolt – Campus Delivery Platform - JavaScript, Node.js, Express.js, MongoDB, TailwindCSS, Docker

- Engineered a campus-exclusive delivery ecosystem, generating local employment and expanding with an on-campus essentials store to boost platform utility by 35% and unify daily student needs.
- Optimized intelligent order routing algorithms for efficiency and containerized the Node.js and MongoDB stack using Docker & Docker Compose to ensure consistent, scalable deployments.

GameZone – Gaming Hub - AWS EC2, Jenkins, Docker, Linux, Node.js, HTML, CSS, JavaScript

- Designed an interactive gaming hub leveraging RAWG and IsThereAnyDeal APIs to deliver platform-based filtering, real ratings, and pricing insights, significantly enhancing user game discovery.
- Created a Jenkins CI/CD pipeline for automated Docker deployments to AWS EC2, ensuring system reliability via AWS CloudWatch monitoring and hardening security with IAM roles and Linux scripting.

AWS Production-Ready VPC Setup - AWS VPC, EC2, ALB, Auto Scaling, NAT, IAM, Terraform

- Architected a Multi-AZ VPC using reusable Terraform modules to configure NAT Gateways and an Application Load Balancer with Auto Scaling Groups, achieving 99.9% availability and fault tolerance.
- Hardened infrastructure security by implementing IAM least-privilege roles, granular Security Groups, and a Bastion Host, ensuring controlled access to private resources in a production-grade environment.

TECHNICAL SKILLS

Cloud & DevOps: AWS (EC2, Lambda, VPC, S3, IAM, ELB, ASG), CI/CD: Jenkins, Docker, Ansible, Terraform

Programming & Web: Python, JavaScript, Shell Scripting, Node.js, Express.js, HTML, CSS

Data & Tools: MySQL, MongoDB, Git, GitHub, GitHub Actions, Postman, VS Code, Jupyter, Google Colab

ACHIEVEMENTS & CERTIFICATIONS

AWS Cloud Practitioner Essentials – AWS Training & Certification, completed June 2025.

HackerRank Certifications : Problem Solving (Basic), Python (Introductory), Software Engineering Intern.
